THE POWER OF CONNECTED

### A complete family of NVRs: Open. Easy to Use. Scalable.

**Honeywell** | Recording Devices

The MAXPRO NVR family is an unmatched suite of open, easy to use and scalable IP solutions that satisfy almost any application. The family includes Software and Turnkey Hardware Solutions:

### **Key Benefits**

- Meet regulatory requirements with long term video archival that provides video data and storage
- Save time through fast and efficient forensic search (reduced false detection) using object based SMART VMD analytics
- Optimize storage, workstation costs and performance with the support of multiple camera streams for varying resolutions and lower frame rates
- Reduce risk by identifying system issues immediately to avoid recording gaps or system downtime with the new status/health monitor

### **Target Dealer Audience**

- Single channel license for encoders and multi-imager 360 cameras reduces system costs
- Reduce configuration time with Auto-discovery of Honeywell and ONVIF cameras
- Save operational costs with an integrated dashboard to easily monitor the health and recording status of all the NVRs from any workstation or PC in the network
